West Virginia's FiberNet is pleased to be joining the Choice One/CTC Communications Network

The merger of FiberNet and Choice One/CTC Communications makes one of the nation's largest Integrated Communications Providers (ICP). The companies offer a full array of local, long distance, high-speed data (including DSL) and web services to small and medium-sized companies. With a service territory stretching from the Northeast to the Mid-Atlantic to the Midwest, FiberNet now is stronger to provide the same great service at the same great prices.
